My PE

- Meaning Accuracy: 7
- Fluency: 8
- Terminology: 7
- Context: 8
- Style: 7
- Grammar/QA: 7
- Overall: 7,3/10

Example 1 - Lexical Ambiguity

- AI: portakal
- My PE: turuncu

Why I changed: The word "orange" can mean both color and fruit. In this context it should be translated as 'turuncu' but AI translated with its second meaning.

Example 2 - Contextual Translation

- AI: Görüntü resimli bir deftere bakmak gibidir.
- My PE: Manzara hareket eden bir resme bakmak gibidir.

Why I changed: The expression 'resimli bir defter' does not fully convey the meaning of the original expression. My translation is more natural and suitable in context.

Example 3 - Contextual Translation

- AI: aceleci
- My PE: acele etmeyen

Why I changed: The word "unhurried" was translated incorrectly as 'aceleci'. I changed it to 'acele etmeyen' to preserve the meaning and context.
