Example 1 - Idiomatic Expression

- Al: bir çimdik iyi Puglian deniz tuzuyla alıyorum
- My PE: bu yüzden onun sözlerine kuşkuyla bakıyorum

Why I changed: The phrase "to take something with a pinch of salt" was translated too literally. My translation conveys the intended meaning more naturally in Turkish.

Example 2 - Terminology

- Al: kaykay
- My PE: vatoz balığı

Why I changed: The word "skate" was translated out of its context. In this sentence, it refers to a type of fish, so "vatoz balığı" is more appropriate.

Example 3 - Contextual Meaning

- Al: inatçı bir aşçıdır
- My PE: yemek konusunda çok kesin fikirleri olan bir gurmedir

Why I changed: The expression "very opiniated foodie" was translated as "inatçı bir aşçı" which gives incorrect information about the person. My translation preserves the original meaning and sounds more natural in Turkish.
