Example 1 - Literal Translation

- Al: gururlu bir yeri vardı
- My PE: en seçkin yer

Why I changed: The expression "took pride of place"

was translated too literally and out of context. My translation sounds more natural in Turkish.

Example 2 - Contextual Adaptation

- Al: dikişlerinde patlarken
- My PE: zar zor sığdığımız

Why I changed: The phrase "to burst at the seams" was translated word to word. As a result, it sounded unnatural.

Example 3 - Misleading Translation

- Al: Hindi dizilerini
- My PE: Hint dizileri

Why I changed: "Hindi" was translated too

Turkish. "Hint dizileri" is more appropriate.
